Trusted Company

MATOSHI
SERVICES

1. Initial Consultation & Concept Discussion: We initiate the process by understanding your vision and preferences for the tile work. We also offer expert advice on tile selection, patterns, and finishing to suit your space.

2. Site Evaluation & Measurements: Our team conducts an on-site assessment to evaluate the surface condition, take precise measurements, and identify any specific requirements for the tile installation.

3. Design Proposal & Quotation: We present a tailored design proposal incorporating your preferences, and provide a detailed, transparent quotation that outlines materials, costs, and timelines.

4. Tile Selection & Procurement: We assist you in selecting the perfect tiles, considering factors such as aesthetics, durability, and budget. We ensure that high-quality materials are procured for your project.

5. Surface Preparation & Installation: Our craftsmen meticulously prepare the surfaces for tile installation, ensuring they are clean, level, and primed. We then install the tiles with precision and attention to detail.

6. Grouting & Finishing: Once tiles are set, we apply grout to seal the spaces between tiles and provide finishing touches to ensure a polished, flawless appearance.

7. Quality Inspection & Cleaning: We conduct a thorough quality inspection and perform any necessary touch-ups. Post-completion, we ensure the site is cleaned and free of debris.

8. Client Walkthrough & After-Service Support: We present the finished tile work to you and encourage feedback. We also offer after-service support for maintenance tips or any additional assistance required.
